

Astro Runtime Progress Report

Noel Winstanley

AstroGrid

Astro Runtime Schematic.

Astro Runtime – Packaging

- Split workbench into family of different sized products
 - Hub, ASR, ACR, Workbench
 - Reduced download size of products
- Produce stand-alone jar, OSX .app and webstart packagings of these products.

Astro Runtime – Improvements

- Registry Client Improvements
 - Supports new Registry Schema
 - Streaming
 - Caching
 - Xquery based
- Polished up PLASTIC Hub implementation
- ADQL Query Builder Dialog improvements

Astro Runtime – Upcoming

- Documentation & Examples
- Registryscope
- Rework Myspace
 - Migrate to Vospace
 - Update Myspace UI
- Integrate more services
 - Skynode (standards?)
 - SLAP (Stable enough)
 - CDS (registration problems)
