

Registry

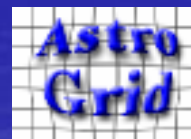

Kevin Benson
MSSL

kmb@mssl.ucl.ac.uk

Achievements

- All Registries upgraded to support both 0.10 and 1.0 including Registry of Registries.
- Agreement that November 1st Registries to support current Registry Interface document and interoperate using 1.0 VOResource.
- XQuery and extend.
- DB Admin.
- Streaming Query Response.

Still to Come

- Harvest services using VOSI.
- Update procedure using VOSI (prototype Guy Rixon).
- Clients to use 1.0 VOResource schema.
- Harvest DOM refactoring.
- Various requests.
- More official Schema standards.
- Clustering fallback (?).
